

Andy Chen

Flushing, New York • 917-374-6610 • adc272@cornell.edu • [linkedin.com/in/-andy-chen](https://www.linkedin.com/in/-andy-chen)

Education

Cornell University: College of Engineering - Ithaca, New York

GPA: 3.613

Bachelor of Science in Mechanical Engineering

Anticipated May 2028

Relevant Courses: Linear Algebra; Differential Equations; Thermodynamics; Dynamics; Statics; Matlab

Work Experience

Utilidors - Arson Lab

NYC, New York

Researcher

Sep. 2025 - Present

- Utilized simulations to model geographic data under NYC streets to create guidelines to use when creating Utilidors
- Analyzed scientific reviews and the 4M-Analytics Database to provide recommendations on potential locations

Code Tiers

NYC, New York

Mentor; Volunteer

Jl. 2021 - Present

- Taught and devised supplementary materials of HTML/CSS, Java and Python to ~30 Middle Schoolers & High Schoolers over Zoom
- Created 7 infographics for the Code Tier's Instagram Page

Project Experience

Cornell Assistive Technologies - Project Team

Ithaca, New York

Engineering Liaison - Mechanical Engineering & Operations Subteam

Feb. 2025 - Present

- Modified a ride-on toy car at the "Go Baby Go" Event to be enhance accessibility for children with disabilities to use
- Designed modular tactile coding blocks with braille to make coding accessible for the visually impaired
- Documented engineering project subteam progress and devised DIY accessible toy adaptation guides for the website
- Created LinkedIn, Instagram and website posts to reach ~600 followers on all platforms

Steel Hawks - School Robotics Team

NYC, New York

Mechanical & Programming Subteam Member

Oct. 2020 - Jun. 2024

- Web-Developed a data collection app, vision system & file name generator using Python, HTML/CSS/JS & APIs
- Created models of the robot using Onshape and an animation video for the Steel Hawks Youtube
- **Team Awards:** FRC New York City Robo Replay Champions, FRC New York City Regional Finalist & Quality Award, FRC New York Tech Valley Regional Semifinalist and Sustainability Award, FRC Long Island Semifinalist, FRC New York Tech Valley Regional Champion

John Hopkins Engineering Innovation Program - Explore Engineering

Baltimore, Maryland

Summer Fellow

Jun. - Aug. 2023

- Earned an A and 3 College Credits during a 5 week course about technical communications, material science, ethics, statics, finance, electronics, computer science, and chemical processes
- Discussed and solved Ethics, Finance and Fermi problems as a group

Cooper Union Summer STEM Program - Maker XR

NYC, New York

Summer Fellow

Jun. - Aug. 2022

- Created multiple functional cardboard, programming and 3D-printed prototypes
- Collaborated on AR/VR/XR projects using 8th Wall, Oculus Headsets, 3D-Printers, and Laser-Cutters

Skills

Programming Skills: Java; Python; C++; HTML/CSS/JS

Engineering Skills: Onshape; SolidWorks; Autodesk Fusion 360; Lathe/Mill; CAD/CNC; Laser-Cutting; Matlab

Software & Productivity Application Skills: GSuite; Adobe Suite; Microsoft Suite
